ON THE ROAD TO greener motoring

NATIONAL CLIMATE CHANGE SUMMIT

Tuesday 3 June 2008 – Realm Hotel, National Circuit, Canberra

Cars hold enormous importance to people from all walks of life, from high mileage drivers travelling to work, to those on low incomes or who are disabled for whom the car is a lifeline to work, the shops and a range of services.

One of the key challenges for Australia in the 21st century is to harness the enormous benefits of cars, while at the same time making significant reductions in the negative impacts caused by motoring, such as air pollution, death and injury and greenhouse gas emissions which lead to climate change.

The Australian Automobile Association (AAA) invites you to take part in a one-day Climate Change Summit, titled *On The Road To Greener Motoring*, to critically examine the role that cars play in our society and the environment, and set an agenda for future strategy and activities aimed at improving environmental outcomes.

The keynote address will be delivered by **DAVID WARD**, Director General of the FIA Foundation for the Automobile and Society.

The FIA Foundation is an international charity and was founded in 2001. Its objects are to promote road safety, environmental protection, and sustainable mobility.

David Ward is also the Secretary of the Commission for Global Road Safety, Chairman of the Governing Board of the World Bank's Global Road Safety Facility, and a Director of the International Road Assessment Programme. He has also served in a number of road safety related advisory committees and working groups of the OECD, the WHO, the UN and the European Commission.

Speakers at the summit include:

HON. ANTHONY ALBANESE – Minister for Infrastructure, Transport, Regional Development and Local Government (Invited)

TERRY AGNEW – Chief Executive Officer, RACWA

ROGER BEALE AO – Senior Consultant, Allen Consulting Group

PETER BENTLEY – President, ITS Australia and Chief Operating Officer, Connect East Group

ALAN EVANS – President, AAA and NRMA Motoring and Services

MAX GILLARD – President, SAE-Australia and Australian Head of Toyota Technical Centre – Asia Pacific

MARK PROEGLER – Director Environment Policy, BP Australia

DAVID WARD – Director General, FIA Foundation for the Automobile & Society
